SUMMARY

B.Tech CSE student specializing in Data Structures, React, and Web Development . Strong foundation in Python, C++, JavaScript, and SQL with hands-on experience building responsive web applications and solving 100+ DSA problems on LeetCode.

Experienced as a Business Analytics Intern and freelance technical trainer.

EDUCATION

Bachelor's of Technology (CSE & DS) **(** 2023-2027)

Mangalmay Institute of Engineering and Technology **GPA : 8.6**

TECHNICAL SKILLS

- **Programming Language** **:** Python, C++, JavaScript
- **Frontend** **:** **:** React.js, HTML, CSS
- **Backend**: : Node.js, Express.js
- **Tools and Software** **:** Git & GitHub, VS code, Advance Excel

PROFESSIONAL EXPERIENCE

My Edu Galaxy, Noida sec-62: Business Analytics Intern (APR 2025 – JUNE 2025)

- Extracted, transformed and Analyzed large datasets using SQL across relational databases (e.g., MySQL, SQL server)
- Automated data processing and reporting tasks using Python, enhancing workflow efficiency and reducing manual errors.

PROJECTS

Blog Website( )

Tech Stack: React, HTML, CSS, JavaScript

- Developed a responsive blog website using **React functional components** and reusable UI structure.
- Implemented **category-based UI sections** and reusable card components.
- Applied **semantic HTML, modular CSS, and responsive design** for cross-device compatibility.

Kanban Task Management System ( )

Tech Stack: React.js, JavaScript, HTML5, CSS3, Git

- Built a responsive **Kanban board** using **React.js** to manage tasks across To-Do, In-Progress, and Done stages.
- Implemented **CRUD operations**, **drag-and-drop workflow**, and reusable components following **Agil methodology**.
- Optimized UI for performance and responsiveness using modern CSS. Version controlled

Voter Management System( )

Tech Stack : React.js, JavaScript (ES6+), HTML5, CSS3, React Router DOM, JSON Server, Fetch API, Git

- Developed a component-based React.js application to perform full **CRUD operations** for managing voter records.
- Integrated RESTful APIs using Fetch API and implemented dynamic routing with **React Router DOM**.
- Managed application state using React Hooks and ensured responsive UI with structured frontend design.

ACHIEVEMENTS/ CERTIFICATIONS

- **C++ Certification (by MLN solutions)**
- **100+ Leetcode Solutions** **Link**
- **10+ React Based Project** **Link**
- **Freelance Technical trainer**
