SHIVAKANT PANDEY

9936458296 | shivapanday9137@gmail.com | github.com/02shivakant |linkedin.com/shivakant| leetcode.com/shiva02

SUMMARY

Aspiring Software Developer with hands-on full-stack experience in the MERN stack (MongoDB, Express, React, Node.js) and Python (Django, Flask, FastAPI). Solved 200+ DSA problems on LeetCode covering arrays, trees, graphs, and dynamic programming. Built and **3 deployed applications** with CI/CD pipelines on AWS and Docker, including a URL shortener handling 500 links/month and a developer productivity dashboard used for 20-person sprint retrospectives. Seeking an SDE-1 role to apply strong DSA fundamentals and full-stack delivery experience.

WORK EXPERIENCE

Bitozee LLP | Python Development Intern • Lucknow **07/2026 - Present**

- Developed backend features using **Python** and **PostgreSQL**, optimizing database queries and schema design to improve query response time from ~400ms to ~300ms (25%).
- Built and customized 5 Odoo modules to automate internal business workflows, reducing manual process steps by 30% (10 to 7 steps per workflow).

Trusting Brains| Python Developer Intern • Noida **05/2025 - 11/2025**

- Built and maintained 3 full-stack web applications using **Django, Flask,** and **FastAPI** with REST APIs, serving 100+ users per day.
- Deployed production applications using **AWS, Docker,** and **Jenkins, CI/CD pipelines**, reducing deployment time from 6 steps to 2steps sec and enabling 3 releases/week

PROJECTS

Linkship — MERN Stack URL Shortener

Live: linkship.vercel.app | **Code**: github.com/02shivakant/Linkship

- Built a full-stack URL shortener (MongoDB, Express, React/Vite, Node.js) with nanoid-based short codes, custom aliases, TTL-based auto-expiry, and rate limiting, supporting 50+ links/month with 80ms average redirect latency.
- Built real-time **click analytics** with **Recharts**, deployed frontend on Vercel and backend on Railway with environment-based **API config** for cross-service communication.

Personal Portfolio

Live: shiva-portfolio.vercel.app **| Code:** github.com/02shivakant/Personal-Portfolio

- Built a responsive portfolio (React + Vite) with dynamic routing and EmailJS-based contact form, removing the need for a backend and reducing load time to 1s.
- Fixed CI/CD deployment failures by migrating vite and @vitejs/plugin-react to production dependencies, resolving 7 build failures on Vercel.

DevPulse — Developer Productivity Dashboard

Live: devpluse.vercel.app **| Code:** github.com/02shivakant/devpluse

- Built a productivity dashboard (React) with Manager/My View modes tracking lead time, cycle time, bug rate, and deployment frequency across 6 monthly snapshots.
- Built per-developer **drill-down views** with **dynamic filtering**, surfacing color-coded performance signals across 9 simulated team members
- Designed multi-team comparison tables with automated health signals (Healthy Flow / Watch Bottlenecks / Needs Review) to support sprint retrospectives.

SKILLS

Languages: C++, Python, JavaScript (ES6+),SQL
Framework: React.js,Flask, FastAPI,
Backend: Node.js, Express.js, Django, RESTAPI,Postgresql
AI Technologies: LLMs, LLM APIs,RAG, AI Agents, LangGraph
CS Fundamentals: Data Structures & Algorithms, OOPs, System Design Basics,Microservices
DevOps & Tools: Docker, CI/CD, AWS (EC2, S3), Linux, Git, GitHub, Postman, Jenkins,Kubernetes

EDUCATION

Mangalmay Institute of Engineering and Technology, Noida Aug. 2023 — Present
Bachelor of Technology — Computer Science & Data Science **|** GPA: 8.6/10

M.A.V.N , Prayagraj 2021 - 2022
Class-12th , CBSE

ACHIEVEMENTS

- Solved 200+ DSA problems on LeetCode covering Arrays, Trees, Dynamic Programming and Graph traversal
- Delivered **20+ technical training** across India as a freelancer .
